

## **8 Ports Table Docking Station**

### **Introduction**

*The 8 Ports Table Docking is your automatic data downloader, which syncs data from your Body Camera during charging. Video/Audio/Photo are uploaded directly to your Digital Evidence Management System. Undoubtedly the Table Docking saves your time by eliminating unnecessary manual processes.*

## **Features**

### *1, Password checking.*

*Turn the camera into removable disk, you do not need to fill in the password by manual process.*

### *2, Data download & uploading.*

*Download the video/audio/photo to your PC and upload the data to Digital Evidence Management System (DEMS).*

### *3, Data erasing after downloaded.*

*The camera's storage will be cleared after data downloaded.*

### *4, Data archive to specific department.*

*The video/audio/photo will be uploaded to specific department in DEMS.*

### *5, Sync time automatically.*

*Correct the camera's time after connected to Docking Station.*

### *6, Charging*

*Start charging the camera once connected.*

## **Technical Specifications**
